

ENERGY

ENERGY

- 12 Countries leading renewable energy
- | | |
|------------------|----------------|
| No 1. Iceland | No 7. Uruguay |
| No 2. Sweden | No 8. Denmark |
| No 3. Costa Rica | No 9. China |
| No 4. Nicaragua | No 10. Morocco |
| No 5. UK | No 11. USA |
| No 6. Germany | No 12. Kenya |

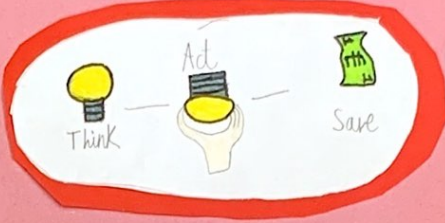

EFFICIENCY

100% of all production costs. In energy intensive industries, the percentage can get up to 40%. It is possible to transfer energy

Canada	UK	France	Germany	China
47%	2%	21%	43%	75%
S. Korea	Japan			
119%	30%			

Energy used in...

Global Warming
Electricity causes air pollution which blocks sun rays in the not back out, so they heat that heat causes to make all speed up global warming.

- How to use less energy
1. I can switch lights off when not in use.
 2. Change bulbs into LED lights.
 3. Take shorter showers rather than baths.
 4. Turn TV/SS standby.

- Good facts for not using electricity
- That it means less pollution in the air, so the sun beams can get through.
 - Less global and melting ice caps.
 - Polar bears, Penguins and other animals living in ice cold habitats will survive longer.

USE LESS ENERGY

Drive less

USE BIKE

- It doesn't cause pollution.
- Exercises your legs.

1. You will get more exercise and be more fit.
2. Less pollution.
- 3.
