1. Vision Statement

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”. According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education’s guidance on statutory policies for schools. The Plan must be reviewed every three years and approved by the Governing Body. The review process can be delegated to a committee of the Governing Body, an individual or the Head.

At Hoyland Common Primary School we are committed to working together to provide an inspirational and exciting learning environment where all children can develop an enthusiasm for life-long learning. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment both locally and globally.

Hoyland Common Primary School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

The Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable. The Accessibility Plan contains relevant and timely actions to:-

- Increase access to the curriculum for pupils with a disability, expanding the **curriculum** as necessary to ensure that pupils with a disability are as equally prepared for life as are the able-bodied pupils; this covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits – it also covers the provision of specialist or **auxiliary aids and equipment**, which may assist these pupils in accessing the curriculum within a reasonable timeframe;

Improve and maintain access to the **physical environment** of the school, adding specialist facilities as necessary – these covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;

- Improve the delivery of **written information** to pupils, staff, parents and visitors with disabilities; examples might include hand-outs and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

The Hoyland Common Primary School Accessibility Plan relates to the key aspects of physical environment, curriculum and written information.

Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

The Accessibility Plan for physical accessibility relates to the Access Audit of the School, which remains the responsibility of the governing body. It may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.

The Accessibility Plan will be published on the school website.

2. Aims and Objectives

Our Aims are:

- **Increase access to the curriculum for pupils with a disability**
- **Improve and maintain access to the physical environment**
- **Improve the delivery of written information**

Our objectives are detailed in the Action Plan below

3. Current good practice

We aim to ask about any disability or health condition in early communications with new parents and carers. For parents and carers of children already at the school, we collect information on disability through Early Help Assessment and by information collection at the start of each year or when a new pupil joins the school.

Physical Environment

Disabled pupils participate in extra-curricular activities. Some aspects of extra-curricular activities present particular challenges, for example: lunch and break times for pupils with social/interaction impairments, after-school clubs for pupils with physical impairments, school trips for pupils with medical needs. Disabled pupils can access all areas of the school. Information in Braille is on all doors across school.

Curriculum

Hoyland Common Primary School are aware there are areas of the curriculum to which disabled pupils have limited access where provision needs to be adapted. Other issues affect the participation of disabled pupils, for example: peer relationships, policies on the administration of medicines, the provision of personal care, the presence or lack of role models or images of disabled people.

Information

Different forms of communication are made available to enable all disabled pupils to express their views and to hear the views of others. Access to information is planned, with a range of different formats available for disabled pupils, parents and staff.

4. Access Audit

The school is a two-storey building with wide corridors and several access points from outside. There is lift access to all floors. The school has wide door access to all rooms.

On-site car parking for staff and visitor includes three dedicated disabled parking bays. All entrances to the school are flat and all have wide doors fitted. The main entrance features a secure lobby and has been fitted with a low reception desk, this being fully accessible to wheelchair users. There are disabled toilet facilities available, one in the entrance, one on the ground floor and one on the upper floor. All these are fitted with a handrail and

a pull emergency cord. The school has internal emergency signage and escape routes are clearly marked. There are also emergency call points in case of fire.

5. Management, coordination, and implementation

We will consult with experts when new situations regarding pupils with disabilities arise. We work closely with agencies to ensure we are able to provide the appropriate access prior to a pupil commencing at Hoyland Common Primary School. This is primarily done through multi-agency planning and Early Help Assessment.

6. Action Plan

Aim 1: To increase the extent to which disabled pupils can participate in the school curriculum.

Our key objective is to reduce and eliminate barriers to access to the curriculum and to ensure full participation in the school community for pupils, and prospective pupils, with a disability.
